## ***SUMMER ReFRESH!***

**Works from the collection**

*On view through September 21, 2019*

**GREENWICH CT July 2019:** Gilles Clement Gallery presents a gathering of their latest collection of cutting-edge Contemporary, Pop, Op and Street Art. An array of artwork delights and inspires the viewer with iconic imagery, vivid colors, and culturally significant themes. Rotating throughout the season, the exhibition will showcase an eclectic mix from the gallery's stable of artists, and a range of mediums and techniques including photography, painting, mixed media, collage and neon. Fresh additions to the gallery are the vibrant abstract works of Philadelphia-based modernist painter **Michael Gallagher**; Spanish artist **Lino Lago's** clever oil paintings that juxtapose classical and contemporary art; and the exploded pop sculptures of French artist **Francois Bel**. Other featured artists include: **Curtis Cutshaw** (oil enamel on birch), **David Datuna** (mixed media), **Robert Mars** (vintage collage and neon), **Clement Kamena** (acrylic on canvas), **MARCK** (video sculpture) and **TRAN\$PARENT** (money art).
